

# Athens Bin Enclosure Suite

QUALITY RANGE  
TRUSTED SUPPORT

# The Athens Suite

## The Hidden Advantages

- 1 All-in-one slider. No grooves for rubbish, dust and grime to collect in.
- 2 20mm covered top posts
- 3 Multiple shapes & styles
- 4 3mm thickness covertop
- 5 Heavy duty steel Waste & Recycle surrounds — can be fitted later.
- 6 Covered top does not overhang base - can create 'bank' of multiple bins.
- 7 Heavy duty stainless steel hinges
- 8 100% Australian made
- 9 Heavy duty quarter turn camlock — can be customised
- 10 Slotted latch hole prevents door pushing in
- 11 Wide and long striker to stop door bowing or becoming uneven
- 12 Heavy 2mm wall thickness
- 13 No weld modular construction
- 14 3-fold corner sections — extra strong

## Features of the Athens Bin Enclosures

Astra's Athens Bin Enclosure Suite boasts a remarkable waste and recycling separation management system. The superior quality of the Athens range contributes to the longevity of these bins, being manufactured, and assembled in Australia with high quality materials and meticulous processes.

Highly praised features of our 100% Australian made Athens Bin Enclosures include a heavy-duty quarter turn camlock to ensure ease when securing the wheelie bin inside the enclosure. The heavy duty 2mm wall thickness and stainless-steel hinges contribute to the reputable and strong modular construction of the bin. The long, wide striker stops the door from bowing or becoming uneven over time to ensure longevity of performance.

The Athens Bin Enclosures have been precisely engineered with a heavy-duty DIY modular construction, available in various base options including powder coated, stainless steel, laser cut stainless steel and timber slats. These base options are available in either open or covered top styles, the covered tops including curved, sloping, and cube top options.

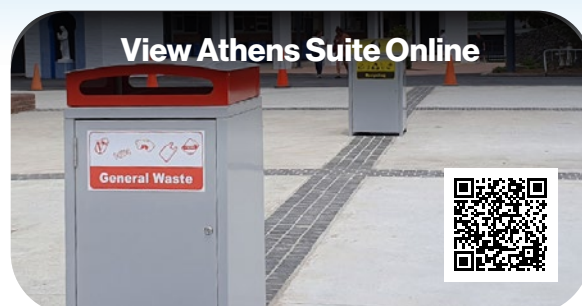

In addition to the varying base styles listed above, different coloured options are also available to demarcate the different waste streams. This includes landfill waste, recycling, and paper disposal streams marked out by the coloured open and covered top modules and enclosure doors. This aims to ensure a clear indication of the waste management system in place in the chosen landscape area. A hidden advantage of the curved cover and cube top option is their seamless ability to bank multiple bins, allowed by no overhang of the cover and modular base, creating a highly notable waste management stream. The implementation of effective and distinctive waste and recycling practices allows the facility to play their part in the restoration of a healthy and clean environment.

If our standard styles, designs, and colours do not suit your requirements, Astra Street Furniture can customise any of our Athens Bin Enclosures with custom (Dulux) colours, laser cut designs, printed signs, logos, or words!
